CORNER HOUSTON, FIRST AND MAIN, FORT WORTH, TEXAS.

EXCURSION TO TEMPLE FORT WORTH IRON WORKS.

Don't fail to come to the Grand Celebration and Barbecue in honor of Temple's tenth birthday.

JUNE 29th, 1891.

And Reunion of Parsons' Brigade. Temple has a bright future. Population about 6000. Railroad shops, machine shops, compress, ice factory, electric lights, five outlets by rail, making a railroad center, fifty to one hundred trains in and out daily, giving employment to several hundred men, with pay roll \$50,000 to \$60,000 monthly. Elevation 800 feet, situated on water shed between the Leon and Brazos rivers. The Temple City Company will

SELL AT PUBLIC AUCTION

Lots and blocks in the "Freeman Heights Addition," which, strictly speaking, is a reservation which would have been built up long since had the owner consented to cut it up into lots and blocks. The best residences in the city are near this property, and the farthest lots are in a few minutes' walk of the business center and overlook the whole city as well as the surrounding country from 20 to 30 miles. The sale of lots will commence at 2 p. m. on Monday, the 29th of June, 1891, on the grounds near the artesian well. Terms: One-third cash, or note and approved security, to be paid by January 1st, 1892, balance in one and two years, with interest at 8 per cent per annum.

THE TEMPLE CITY COMPANY,
By J. E. MOORE, General Manager.

Nicks & Co., Druggists, Sole Agents, 511 Main Street, Fort Worth, Texas. Sample packages free.

SOMETHING TO READ

A New Company Formed for the Purpose of Furnishing

LITERATURE TO THE FARMERS.

Leading Alliance Members Throughout the State Get Their Heads Together.

The "Farmers' World" Will Be the New Child's Name, and June 24 Will Be Its Birthday—Articles of Agreement and Prospectus.

Special to the Gazette.

DALLAS, TEX., June 20.—The variance of opinions held by prominent members of the Farmers' Alliance of Texas and the desire to have the views of all factions represented has at last resulted in the formation of a new company for the purpose of publishing a paper in behalf of the people. The following articles of incorporation have been forwarded to Austin, and have to-day for the first time been made public:

Articles of incorporation of the World publishing company.

We, the undersigned subscribers to the capital of the World publishing company, resident citizens of the counties of Bexar, Dallas, Medina, Frio, Tarrant, Limestone, Travis, Navarro, Houston, Freestone, Robertson, Fannin, Bell, Anderson, Williamson, Montague, Rockwall, in the state of Texas, do hereby associate ourselves together and form a corporation for the purpose of printing and publishing one or more newspapers, and carrying on a general printing and publishing business in the city of Dallas and at other points in the state of Texas, and availing ourselves of the provisions of the laws of the state of Texas in relation to the organization of corporations, do hereby adopt the following articles of incorporation:

Article 1.—The name of said corporation shall be the World publishing company.

Article 2.—The objects of this corporation are hereby declared to be the publishing and printing one or more newspapers and carrying on a general printing business, with all things properly pertaining thereto.

Article 3.—The business of said corporation shall be transacted in the city of Dallas, and at such other points in the state of Texas as may be determined by the directors, a majority of whom shall form a quorum for the transaction of business.

Article 4.—The existence of this corporation shall date from the time of filing these articles in the office of the secretary of state, and shall remain in force for the full term of fifty (50) years.

Article 5.—The corporate powers of said company shall be vested in a board of five directors, who shall be elected annually at the annual meeting of the stockholders in the city of Dallas. Stockholders shall be entitled to one vote for each paid up share of stock owned by them, and may vote either in person or by written proxy. The directors shall elect a president from their own number, also a secretary and treasurer. In voting for officers and upon all questions pertaining to the management of the corporation the directors shall be entitled to one vote for each share of stock owned by them. If not present in person at meeting they may vote by written proxy. The duties and powers of the officers of the corporation shall be fixed by the directors. The following named persons shall constitute the directors for the first year: James L. Moody of Limestone county, E. Newton of Tarrant county, Sam H. Dixon of Dallas county, J. L. Goodman of Robertson county, C. C. Bell of Denton county.

Article 6.—The capital stock of said corporation shall be twenty-five thousand dollars (\$25,000), divided into five hundred (500) shares at fifty (\$50.00) dollars each. B. F. Rogers, John F. Nash of Anderson county, J. L. Goodman, W. B. Morrow, F. F. Doherty, J. T. Beasley, A. J. Manning of Robertson county, J. L. Moody of Limestone county, E. B. Belo of Tarrant county, C. C. Bell of Denton county, C. F. Fawcett, William H. Murray, T. M. Smith, J. B. A. Folk of Navarro county, W. L. Sargent of Stonehall county, George W. White of Freestone county, C. H. Hall of Medina county, B. H. Erskine of Frio county, Sam H. Dixon, R. M. Hudson and H. C. Davidson of Dallas county, James W. Crayton of Rockwall county, D. McCann of Williamson county, Elihu Newton of Tarrant county, A. V. Cagle of Montague county, George T. Murray of Parker county, R. C. Bragg of Fannin county, W. F. Murchison of Houston county, and W. C. McElwee of Bexar county.

The board of directors met here to-day and elected Hon. J. L. Moody of Limestone county president.

Hon. J. L. Goodman of Franklin, Robertson county, was elected editor of the paper. There were several names presented for the position, but Mr. Goodman was finally agreed on. He is on the field and it is understood will accept.

The "Farmers' World" will be out in initial issue on June 24. The paper will be an eight-page, six-column weekly.

THE PROSPECTS.

The following is contained in its prospectus:

The Farmers' World will not be the organ of any party, clique or faction, but will be Democratic in sentiment and will favor and advocate:

1. A reduction of the tariff to a revenue basis and a tariff for revenue only.

2. The free and unlimited coinage of gold and silver—the money of the constitution—and such currency as may be found thereon, as the surest, safest and most permanent settlement of the money question.

3. The election of honest, pure and incorruptible men to office and the economical administration of the local, state, county and municipal governments.

4. The uplifting and elevation of the laboring classes, by means of education, co-operation, the using of labor-saving machinery, and the very latest and best methods of farming.

The principles of the Alliance and Grange as originally promulgated embody these thoughts and will receive our hearty endorsement.

The World will oppose and condemn:

1. Class legislation of every character and all attempts to engender class prejudices and array the people of our common country against each other in political organizations founded on class distinctions.

2. All attempts of any man or organization to use the name of the Alliance for the promotion of their own selfish end, and therefore every attempt to convert the Alliance or other farmers' organizations whose objects are in themselves commendable into a secret political organization, enslaving the consciences and degrading the manhood of the class for whose benefit they were founded.

3. All attempts, whether by precept or example, to teach the people that the government possesses anything it did not get from them, and can by means of the treasury bill, attempt to create values by its fiat or other impracticable or visionary schemes of finance, destroy the principles of political economy and put a single dollar in any man's pocket without an equivalent in labor.

By adhering to the old land-marks as above outlined and in that way only will we secure the just reward of honest toil, come to the laboring classes, and the World therefore confidently appeals to the farming and laboring classes generally, whether in or outside of existing political or labor organizations, who endorse its purposes to rally to its support.

The World publishing company is composed of the following stockholders, all of whom are members of the Farmers' Alliance:

B. F. Rogers and John F. Nash of Anderson county; J. L. Goodman, W. B. Morrow, F. F. Doherty, J. T. Beasley, A. J. Manning of Robertson county; J. L. Moody of Limestone county; E. B. Belo of Tarrant county; C. C. Bell of Denton county; C. F. Fawcett, William H. Murray, T. M. Smith, J. B. A. Folk of Navarro county; W. L. Sargent of Stonehall county; George W. White of Freestone county; C. H. Hall of Medina county; B. H. Erskine of Frio county; Sam H. Dixon, R. M. Hudson and H. C. Davidson of Dallas county; James W. Crayton of Rockwall county; D. McCann of Williamson county; Elihu Newton of Tarrant county; A. V. Cagle of Montague county; George T. Murray of Parker county; R. C. Bragg of Fannin county; W. F. Murchison of Houston county; and W. C. McElwee of Bexar county.

We, the undersigned members of the Farmers' Alliance of Texas, believing that the objects and purposes of the order are not being carried out by those who now authorize demands before the state and state organ, and being unwilling, by silence or inaction, to tacitly endorse those who abuse and misuse the trust committed to them, and who have assumed to exercise authority not delegated either by the state Alliance or the constitution of the order, hereby call a meeting of all members of the state, county or subordinate Alliances of Texas, to be composed of the following named persons:

1. All members who oppose the sub-treasury bill and other like impracticable and visionary schemes of finance, and who do not endorse the efforts of the state Alliance bosses to brow-beat and drive the Democratic and independent thinking element of the order into the support of those measures.

2. All who do not endorse the conduct of the so-called legislative committee that assumed to represent the Alliance at Austin, before the last legislature, and made unauthorized demands before that body in the name of the order, and who believe that the representatives of the people are capable of guarding their interest without the interference and espionage of steering committee and self-constituted spies.

3. All who are willing to organize for the purpose of defeating the bargain and agreement believed to have been entered into between the Farmers' Alliance and the railroads and other corporate interests of this state and certain Alliance leaders, and which bargain is in our opinion now being carried out, whereby the vote and influence of the Alliance are to be used in defeating a fair and impartial trial of the railroad commission law, incorporated in the constitution and placed on the statutes mainly by the vote of the agricultural classes.

4. All who are in favor of preserving the fruits of the great victory won over corporate power in the adoption of the railroad commission amendment, and the enactment of the law, wise and in whole law thereunder by the last legislature.

5. All who oppose fraud, trickery, deceit and corrupt methods within the Alliance, and who are unwilling to make the order a tool or instrument for furthering the political interests of any man or party.

6. All who favor maintaining in their original simplicity the objects and purposes of the Alliance, leaving each member to select the party of his choice as the medium through which to give expression and effect to his political opinions.

The meeting will be held at Fort Worth on Friday and Saturday, July 10 and 11. Reduced rates of fare will be given by the railroads and at the hotels. Eminent and distinguished Alliance speakers, at home and abroad, have been invited to be present and address the meeting, among whom are the following: Hon. W. J. Northern, governor of Georgia; Hon. Mr. Tillman, governor of South Carolina; Hon. U. S. Hall, president of Missouri state Alliance; Hon. Ethel B. Wade, secretary and treasurer of Tennessee state Alliance; Hon. J. M. Beeman, Alliance-Democratic member of the Alabama legislature; Hon. W. S. McAllister of Mississippi; Hon. W. L. McCaughey, commissioner of the general land office of Texas, and others. All meetings will be held with open doors, and the public are cordially invited to attend. A complete programme will be issued in a few days.

R. C. BRAGG, Secretary Fannin County Alliance.

Secretary Robertson County Alliance.

T. M. SMITH, Ex-Vice President State Alliance, and Assistant State Lecturer, Navarro County.

taking the quota of sealskins it had a right to take by law and by the terms of its contract, and gives notice that it will claim to be reimbursed by the United States the full amount of loss it may sustain by reason of its being prohibited by the United States from taking its full quota of 60,000 sealskins during the year 1891.

Reinsured an Insurance Company.

TORREX, KAN., June 20.—The Capital Insurance company, to-day, at the request of its officers has been placed in the hands of a receiver. No statement of assets or liabilities can be had for a day or two. State Insurance Commissioner Webb some time ago revoked the company's charter, but was, upon application of the company, compelled by the United States circuit court to restore it. That incident ruined the company's credit and forced it into liquidation.

Hebrews to Celebrate.

NEW YORK, June 20.—Many prominent Hebrew-Americans met Tuesday to take action for participation in the quadri-centennial of the discovery of America. The following resolution was adopted: That the quadri-centennial of the discovery of this continent be marked in some appropriate manner by the Hebrews of the United States, and a committee of twenty be appointed to report at the earliest time practicable to an adjourned meeting of this assembly what form the celebration shall assume and the mode of carrying it into effect.

A JULY STORM.

Storm Waves Throughout the Year Show Greater Energy.

ONE OF THE HOT PERIODS.

Season Dry and Wet in Spots—A Theory Promised that Will Explain all the Phenomena of Tornadoes—Drawback of Finley's Theory.

Special to the Gazette.

ST. JOSEPH, Mo., June 20.—My last letter gave forecasts of the storm wave due to cross the continent from June 25 to 29. The next will be due to leave the Pacific coast about June 30, cross the Rocky-Allegheny valley from July 1 to 3, and reach the Atlantic coast about the 4th. There are no special features about this storm wave, except from this on, throughout the year, all the storm waves will show increased energy. This storm will take a northern route, and the weather preceding it will be very warm, and will constitute one of the periods of July, but will be of long duration. Rains will fall only in spots, and the weather will be too dry in many places for the good of the crops. More copious rains may be expected for the two weeks following July 10.

FINLEY ON TORNADES, NO. 3.

In his book Mr. Finley points out that water is drawn out of deep wells; iron bridges lifted from one pier, while the others are left standing; one house out of a cluster is picked up and carried away while the others are left standing, and that feathers are all blown off of chickens without hurting these fowls. He then declares that it is impossible for electricity to do such things. Mr. Finley correctly states the facts about these matters, but his theory as to the cause is not backed up by sound reasoning.

It is difficult to understand how wind or air by suction can be made to draw water out of any well and it is impossible for suction to draw water out of a well more than a few feet. Before suction can draw water from even a shallow well the air must be left free to rush down into the well as rapidly as the water is drawn out, and the front of a tornado funnel would never be so nicely adjusted to enter a cistern through an eighteen-inch opening at the top, reaching the water with its suction so as to leave space around the tornado funnel for the air to go down into the well. If the tornado funnel should be large enough to cover the mouth of the well so as to draw all the atmosphere out of it the water would not follow for it requires the weight of the atmosphere on the water outside of the funnel or pump tube to force the water up through the latter. But we know that the earth is charged with electricity, that electricity will lift and convey water, and it is not difficult to understand that if the moving force of a tornado is a current of electricity that current is competent to carry water out of the well as it streams forth from the ground.

But a still greater drawback to Mr. Finley's theory is that many cases are on record where the tornadoes have carried all the water out of wells more than thirty feet deep. How is he going to make suction do such work?

Why do iron bridges go from their stone piers in a tornado without lifting the stones of the piers? Because electricity takes hold of iron more readily than of stone. In tornadoes the bells of school houses and churches are the first to go, and in the 1886 tornado at Kansas City, Mo., where so many children were killed, the iron beams supporting the bell were thrown from the school house, and the mechanics testified that this appeared to be the only cause of the destruction of the building. The wind alone theory will not explain this, while electricity alone answers every demand.

Can it be possible that wind alone can completely strip the feathers from a chicken and not hurt the fowl? Never; but it is possible for electricity to do this. Place a man or a woman on an insulated stool so that the electricity will not pass through the body to the earth, and then charge the body with electricity and every hair of the head, even a woman's long hair, will stand out like iron spikes or the sized cornstalks or cedar—are not capable of being magnetized, but if hung in a cluster will fly asunder when electricity is introduced among them. Feathers do not conduct electricity, and I will guarantee that all the feathers can be driven from a chicken by charging its body with a strong current of electricity.

After showing up some of the failures of the wind theory, I will take up the other side and introduce to my readers a theory that will better explain all the phenomena of tornadoes.

W. T. FOSTER.

Charged With Incest—Allowed Bail.

Special to the Gazette.

PARIA, TEX., June 20.—John Ball and Robert Boutwell have been allowed bail at \$3000 each, and think they can make their bonds. They are the men convicted of the murder of J. F. Box and sentenced to death, but whose sentence was reversed by the supreme court of the United States.

Miss D. S. Newcomb, who is charged with incest with her uncle, Dr. Newcomb, was placed in jail here yesterday.

Will Ask to Be Reimbursed.

WASHINGTON, June 20.—The North American commercial company has filed a protest with the treasury department, in which it recites that it has a right to take furs from the islands of St. Paul and St. George for a period of twenty years from May 1, 1873, to May 1, 1893, and has sustained a loss of \$400,000. The company submits a formal protest against the action of the United States in preventing it from

LOWE'S STATEMENT.

The Manager of the Newses Changes Answers.

THAT \$12,000 ASSESSMENT.

It Was in the Agreement of the Texas Traffic Association Made at New Orleans.

Never Heard that Any Money Was Appropriated by the Texas Association to Pay for Ads in the Post or Gazette.

The Major's Figures.

GALVESTON, TEX., June 19.—Following is the statement of Major R. G. Lowe before the International and Great Northern investigating committee:

I wish to make a statement with regard to my testimony delivered on Wednesday. As it appears in the News—I find there the question put to me by Mr. Duncan: "Do you know anything about the resolution passed by the board of that association at New Orleans, in which the railroads were assessed a certain amount, I will name \$12,000, to be appropriated to the advertising of the different roads, a proportionate amount to each road?"

Answer—"I do not."

I now desire to change that, to say that I do.

In another portion of the testimony referring to what Mr. Newman said, the question was asked: "He referred you to the Texas traffic association and said that the matter would be taken up by the Texas traffic association, and they would arrange for the advertisement. Did you have any correspondence with Mr. Waldo?"

A—"No."

I now desire to say yes.

This question was also asked: "Did your paper have any correspondence with Mr. Waldo concerning the advertising for the Texas traffic association?"

A—"None whatever. I met Mr. Waldo personally."

I desire to change that to yes.

My reason for this statement is, that on returning to the News office yesterday, in conversation with the secretary of the A. H. Belo & Co. corporation, Mr. Dealey, who keeps the records of the office, I mentioned to him something of my testimony—something of the questions and my answers, and among other things I mentioned a resolution which was passed by the traffic association at New Orleans. He said we had the resolution on file at the office. When he said that, it was here I asked him to produce it, and he submitted it with him.

THIS LETTER FROM MR. WALDO.

Mr. Duncan—I would like to see the letter first so that I can see it. The letter was handed to Mr. Duncan, who carefully examined the same. It was with the resolution passed to the witness and read by him, and admitted in the evidence.

The date of the letter was January 1, 1889, and the date of the letter was February 15, 1889.

Question—"Anything more?"

Answer—"Yes, sir, touching the inquiry made on yesterday."

Q—"Did you not have a bill against the Missouri, Kansas and Texas for the same sum of money as that submitted to the receivers, and was not that a part of the assessment that had been made upon this company by the Traffic association, and did they not refuse to pay?"

A—"Whatever controversy was carried with the receivers of the Missouri, Kansas and Texas was made directly with them. I do not know the course of collecting or how the bills were referred or when paid. I never heard of it, but I heard of it when it came from the books of our company the first payment was made on March 18, 1889, \$130; March 31, \$130; June 12, \$130; July 1, \$130; August 31, \$130; September 17, \$130; September 27, \$130; November 1, \$130; November 28, \$130; February 28, 1890, \$240; making a total of \$1440. They did not commence advertising, I think, until the 1st of February, 1890, a copy not being sent down before that time."

Q—"You had no difficulty in collecting the accounts?"

A—"No. The letters were sent by the secretary of our corporation. I was not aware myself of it. I do not attend to the collections of the office. The letter containing the accounts was referred to the general passenger agent. Messrs. who had not been informed of it, and who had not been authorized by the receivers, and the contracts authorized occurred."

I now desire to state the figures in response to your inquiries of yesterday as to the business of the roads with the News. The statement includes special notices and advertisements, as well as the standing advertisement. My desire is to submit to the committee what I believe was asked for.

THE TRUTH, THE VERY TRUTH.

I desire to submit to the committee a statement of the business of the News with the railroads for the year previous to 1889, so as to show the business of the News for that year. My purpose is to show that the News has been conducting railroad advertising for a series of years, and that the business has been managed in the ordinary way that the business of other persons and corporations has been managed. We were and are prepared to contract with any organization of a legitimate purpose for all advertising which is recognized as desired by all professional and non-professional people. The witness then submitted a statement showing the total amount the News had received from the various railroads of the state for the years 1888 and '89, were as follows. In 1888 the amount was \$9000.34. For 1889 it was \$12,390.24. For 1890 it was \$9927.32, and for the five months beginning January 1, 1891, it was \$204
